Residential Address: 13, Madan Saha Lane, Sutrapur, Dhaka, Bangladesh

Professional Summary

A motivated and adaptable recent graduate with a strong foundation in software development. Eager to learn and contribute positively to a dynamic work environment. Possesses a proactive approach, meets deadline effectively, and strives for high-quality outcomes. Committed to exceeding expectations, finding innovative solutions to challenges and contributing to the success of the organization.

Language, Framework, Tools and Other Skills

- ASP.NET Core, ASP.NET MVC, Web API
- HTML, Bootstrap, SASS, CSS, Javascript, Typescript, JQuery, Angular, React Native
- C#, C++, LINQ, Entity Framework and MSSQL
- AWS (EC2, S3, SQS, DynamoDB), Docker
- SOLID, CQRS, MediatR pattern in Microservices
- RDLC, DevExpress
- Unit Test (NUnit)
- Git, Github, Jira, GitLab, Jira
- RabbitMQ
- Web Security (SQL and Script injection, DDoS, SSL Certificate)
- Worker Service
- Web Scraping
- Data Structures and Algorithms

Working Experience

Junior Software Engineer (.NET)

Advanced Software Development- House #19, Road 13C, Banani, Dhaka 1213, Bangladesh

2/2024 to Present

- Modified and debugged existing code and features.
- Worked with CQRS and MediatR patterns within microservices.
- Developed applications using Angular and the .NET framework.
- Managed tasks with Trello and version control with GitLab.
- Ensured smooth integration and functionality across components.

Software Engineer Intern (.NET)

Dev Skill - Begum Rokeya Sarani, Mirpur-10, Dhaka 1216, Bangladesh

12/2023 to 2/2024

- Contributed to the initial development phase of Dev Skill's project.
- Implemented the backend Web API using Clean Architecture.
- Developed the frontend using Angular, ensuring a seamless and user-friendly interface.
- Implemented CRUD features and conducted thorough Unit Testing to ensure code reliability and functionality.
- Contributed to code reviews, ensuring quality and seamless integration into the develop branch.
- Maintained CI/CD pipelines for continuous integration and deployment.

Industrial / Personal Application Projects

Team Project	DevJobs We created a system for scraping and analyzing job markets. We utilize ASP.NET Core for the backend and Angular for the frontend, maintaining a clean architecture. Additionally, we implemented unit tests and conducted daily analyses to ensure thorough testing and review of each component before integration into the main system. Language/Tools: .Net Core Web API, SQL Server 2019, JS, Angular, TailwindCSS
Team Project	DigiCV We developed an intelligent CV creation system tailored for tech professionals. Employing Clean Architecture for the backend, we conducted daily analyses, ensuring rigorous testing and review of each component before integration into the main system. Language/Tools: .Net Core Web API, SQL Server 2019, JS, Bootstrap Github: https://github.com/msashoyeb/DigiCV
Personal Project	Message Queue Service Implementing a robust message queue service using RabbitMQ to enhance communication and scalability in distributed systems. Language/Tools: C#, SQL Server 2016, JavaScript. Github: https://github.com/msashoyeb/Message-Queue-Service
Personal Project	Problem Solving I have solved over 500 problems on various online judges, ranging from basic to algorithmic problems. Language: C++, C# Link: https://github.com/msashoyeb/Problem-Solving-Stats

Education

B.Sc. in Computer Science & Engineering (CGPA 3.44 out of 4)	2023
American International University Bangladesh - AIUB	
Higher Secondary (H.S.C) in Science Group	2018
Dania College, Dhaka	
Secondary School (S.S.C) in Science Group	2016
Dhaka Collegiate School, Dhaka
